TO: TC Energy

From: Teske Farms Inc.

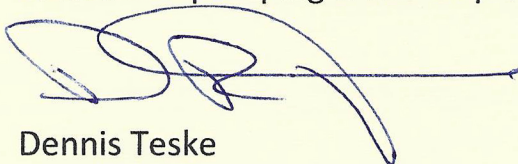

I fully support the construction of the XL Pipeline that will be built from Canada to Nebraska. Thank you for going above and beyond the challenges that have been placed upon your company.

Prairie County has watched our citizen age and her young people move away. Our county is agricultural based with limited growth over the last 25 years. The construction of the pipeline will create many construction jobs and dozens of long term jobs. Regionally it will allow a safer and more competitive transportation of Balkan crude oil to market. It will be 46% carbon emissions cleaner. The pipeline will help keep America energy independent.

Small population counties always struggle with making financial end meet. Tax wise TC Energy is a God send. Those new tax streams will back fill many of our budget shortages. The county could hire new road personal and update old equipment that are greatly needed. September 20, 2020

The land owners I speak with have been very complimentary towards your company. TC is fair in value, communicates well and is a good neighbor.

If I can help promote your project or be of any service to finally see this pipeline buried and pumping crude oil please feel free to call.
